- HTML
- CSS, SASS, TAILWIND, Bootstrap
- ReactJS
- Redux
- Figma

NADYA ZHIGAREVICH

FRONTEND DEVELOPER

I am currently a second-year student at the Faculty of Mechanics and Mathematics at BSU. I have a strong enthusiasm for mathematics and a keen interest in frontend development. Delving into the complexities of mathematical ideas and their use in web technologies truly excites and fulfills me.

PROJECTS

Notion

November, 2024

Built on the React framework and utilizing the Redux library for state management, this project offers a seamless user experience. Users can sign up using their credentials and gain access to a personalized dashboard where they can create, edit, and delete notes.

ReactJS Redux

[Code](#)

API & SPA

November, 2024

The application provides an intuitive user interface where users can view their albums and browse through the photos within each album.

ReactJS

[Code](#)

TODO List

October, 2024

The To-Do List application is a user-friendly tool designed to help you organize and manage your tasks effectively. Whether you're keeping track of daily chores, project deadlines, or personal goals, this app provides a simple interface to help you stay focused and productive.
